## Exhibition and Sponsor Invitation

To whom it may concern:

The 12<sup>th</sup> SCBA International Symposium is organized by the Society of Chinese Bioscientists in America (SCBA), the Academia Sinica (AS) and the National Health Research Institutes (NHRI), with principal sponsorship from AS, National Science Council (NSC), Department of Health (DOH), Executive Yuan, College of Life Science, National Taiwan University (NTU), and Biophysical Society of R.O.C. The title of the Congress is "*Science for a Healthier and Better Life*". For continuous updates and detailed information on the 12<sup>th</sup> SCBA, please visit <http://idv.sinica.edu.tw/scba/> or <http://www.scbasociety.org/>.

The series of SCBA international Symposium is held biennially. It has generally attracted more than one thousand international and Chinese scientists specialized in biotechnology and biomedical sciences to participate in the conference. The 9<sup>th</sup> SCBA was organized and held in Taipei in 2001. The 12<sup>th</sup> SCBA will meet again in Taipei and is in pursuit of the topic of better and healthier human life.

The conference has invited around 170 prominent and cutting-edge specialists, including Members from the National Academy of Sciences of USA, Academicians of Academia Sinica and Chinese Academy of Sciences to deliver plenary or keynote speeches, who will share their views on the significance of biotechnology and biomedical sciences. Each day there will have four concurrent symposia, colloquia and scientific sessions and 150 poster presentations to be displayed.

The conference organizers cordially invite your enterprise or company to join the on-site exhibition, advertisements on booklets/website, or relevant sponsorships in related to the conference program. We believe the 12<sup>th</sup> SCBA would create great opportunities for interactions among participants and your company/products. Welcome to join us in Taipei!!!

Best regards,

## Preface

---

SCBA will hold its 12<sup>th</sup> International Symposium at the International Conference Hall of the Academia Sinica, Taipei, June 14 to 18, 2009. The SCBA is the largest professional society for Chinese bioscientists in United States and Canada. This is the second time SCBA holds its biennial meeting in Taipei, Taiwan. The first one in Taipei was held in 2001. The 2009 International Symposium is organized by SCBA, the Academia Sinica (AS) and the National Health Research Institutes (NHRI), with principal sponsorship from AS, the National Health Research Institutes (NHRI), the China Medical University and Hospital, the College of Life Science of the National Taiwan University and several distinguished co-sponsors. SCBA also anticipates that additional universities, institutes and industrial corporate supporters will join as co-sponsors of this exciting and unprecedented meeting. About 1,000 - 1,500 scientists from the United States, Canada, Taiwan, Mainland China, Hong Kong and Singapore are anticipated to participate in this 4.5 day conference.

The principal theme of this unique meeting is “Science for a Healthier and Better Life” and it will feature Nobel Laureates, various Members of the U.S. National Academy of Sciences, the Academia Sinica of Taiwan and the Chinese Academy and Institutes and about 170 invited speakers who are leaders in cutting-edge research and development in biological, medical and biotechnological sciences. These scientists will present their research and hypothesis in six plenary and special lecture sessions and 32-40 different workshops. SCBA also anticipates over 150 poster presentations from scientists, investigators and students from various parts of the world.

## Tentative Program

---

### **Theme #1: Aquacultural and Agricultural Biology**

Session #1: Fisheries and aquaculture

Session #2: Plant biology

Session #3: Biofuel

### **Theme #2: Entrepreneurship**

Session #1: Changing career leaderships between academia and industry

Session #2: Entrepreneurs in action

### **Theme #3: Biotechnology & Nanotechnology**

Session #1: Nanobiotechnology and nanomedicine

Session #2: Academic driven nanobiotechnology and nanomedicine

### **Theme # 4: Cancer Biology**

Session #1: Prognostic and predictive biomarkers for cancer

Session #2: Cancer cell signaling

Session #3: Tumor microenvironment and metastasis

Session #4: Targeted cancer therapy for personalized cancer care: From bench to bedside

### **Theme #5: Epigenetics and Epigenomics**

Session #1: Environmental epigenetics and cancer susceptibility

Session #2: DNA damage responses in genome maintenance and cancer

Session #3: Chromatin epigenetic modification and cancer

### **Theme # 6: Neuroscience**

Session #1: Neurodegenerative diseases and neural repair

Session #2: Neural development

Session #3: Neural plasticity

Session #4: Cognitive neuroscience

### **Theme #7: Pharmacology and Chinese Medicine**

Session #1: Pharmacology and Chinese medicine

Session #2: GPCRs as novel drug targets

**Theme #8: Stem Cell Biology and Regenerative Medicine**

Session #1: Mechanism and regulation

Session #2: New approach and reprogramming

Session #3: Disease and tissue regeneration

**Theme #9: Structural Biology**

Session #1: Structural and mechanistic analysis of channel proteins and viruses

Session #2: Decoding binding specificity and signal pathways through structural characterization

**Theme #10: Systems Biology**

Session #1: Molecular signaling in obesity/diabetes

Session #2: Metabolic engineering and communication

Session #3: Systems biology

**Theme #11: Chemical Biology & Enzymology**

Session #1: Chemical basis of enzyme catalysis

Session #2: Drug discovery

**Theme #12: Immunology and Infectious Diseases**

Session #1: Viral pathogenesis, anti-viral and anti-cancer therapies

Session #2: Infection and immunity

Session #3: Signaling and transcriptional regulation in the immune system

**Theme #13: Post-translational Modification**

Session #1: Protein phosphatase

Session #2: Protein sumoylation in cell signaling

**Special Workshops**

Session #1: Genomic medicine: Y chromosome, germ cell and gonad development

Session #2: Environmental carcinogenesis and cancer prevention

**Ray Wu Memorial Legacy Lecture**

**Tsai-Fan Yu Memorial Legacy Lecture**
